Student Declaration

Please select the option that describes your situation:

Option 1: GenAI Tools Have Been Used

✓ I/We declare that Generative AI tools have been used to prepare the submitted work. The Generative AI tools used and the manner in which they were used are as follows:

GenAI Tool Used	How It Was Used
Doubao	I requested AI to explain float-clearing techniques and diagnose the missing search input issue. The AI identified that the category label’s rendered width of 111 px caused a total width of 721 px, exceeding the 720 px navigation bar and leading the input to wrap and get clipped by overflow: hidden. I then learned web-page code workflows from AI, followed its code outline to write my own implementation, and used AI to audit my code against assignment constraints for required comments and structural compliance. The outline of this design statement was AI-generated, with subsequent review and full writing completed by myself.

Option 2: GenAI Tools Have Not Been Used

☐ I/We declare that Generative AI tools have NOT been used to prepare the submitted work.

Notes for Students

- This declaration must be completed for all assessed work
- Failure to declare GenAI tool usage may result in academic misconduct proceedings
- Using GenAI tools without declaration violates academic integrity policies
- If unsure whether to declare, consult with your module tutor or supervisor
- All GenAI usage must comply with module guidelines and institutional policies
- If you use AI tools and not declared above, you will get 50% of your original score
